### **WPA Announces 2023 Summer Intern**

The Wisconsin Pork Association is excited to announce that Courtney Mullooly will be joining the team as our summer intern beginning June 1<sup>st</sup>!

Originally from Janesville, WI, Courtney is currently a junior at University of Wisconsin- River Falls where she is pursuing a bachelor's degree in Agricultural Education and Animal Science. She grew up on her family's farm raising beef cattle and later became involved in showing pigs. Courtney has worked as a hired hand and most recently held an internship with 33 Feeds as a nutrition consultant. Additionally, she enjoys mentoring youth and helping achieve success with their swine projects.

Through her experiences, Courtney has developed a passion for educating both young people and adults about all the opportunities agriculture has to offer. Additionally, they have sparked a specific interest in learning more about the swine industry and the programs that drive it, which makes her the perfect fit for our organization.

Courtney will serve as the official youth representative of the Wisconsin Pork Association. During her internship she will focus on marketing and promoting the pork industry in our state. More specifically her duties will include helping coordinate state fair events such as Pork Schoppe and Hall of Fame, create youth focused activities, job shadow individuals at the national offices, develop social media posts, create publications, develop and execute a special project, attend board meetings, interact with producers, visit hog farms and other allied businesses, and create a final presentation upon completion of her internship.

Courtney is excited to begin and to learn more about Wisconsin's diverse swine industry and to serve as an asset and resource for our producers and members. Welcome to the team, Courtney!

For questions or to inquire about future internship opportunities, contact us at 608-723-7551 or email [wppa@wppa.org](mailto:wppa@wppa.org).

The mission of the Wisconsin Pork Association is to promote and protect the state's pork industry to ensure its success now and in the future.
